We cannot turn it off now

Eric, Matt,

FYI we are still exposing TCEQ data in the story map symbolized by what they identify as **exceedance/non-exceedance** in their service. Per my email below, we have some questions regarding with some VOC and Butadiene data...

Do you want us to turn off their data until we confirm it is correct, or keep it exposed it as is?

Thanks,

Good Morning,

I have pulled the latest data that you have recently published. I noticed that you removed the extraneous air monitoring data that did not fall within the TPC project area. Thanks for that!

Secondly, I have exported the data to Excel (attached) from the service. I'm looking at the "EXCEED\_NON\_EXCEED" column, and I am noticing there are some corresponding "VOC" and "Butadiene" readings that would satisfy the exceedance criteria, but are not flagged "Yes" to signify an exceedance. I have highlighted those items in question in the spreadsheet. Can you confirm that this is correct?

Here is what EPA considers an exceedance:

5 ppm VOC  
0.5 ppm VOC-1,3 Butadiene Equivalent

Let us know with any questions.

Thanks again!

Hello,

Just wanted to let you know that the data has been updated to include an exceed/non-exceed column, and the service has been republished as a feature service. Please let me know if you have any questions/concerns.

Thank you,

Hello,

The most recent data has been added. As requested, I am working to add an 'exceed/non-exceed' field.

Thank you,

**Catherine Hodde-Pierce**
